**Re: Approval of ARC request for Authorization to Perform Water Treatment During the 2017 Spring Portion of the Limited Access Season High Density Sludge Treatment System Leviathan Mine Alpine County, California, dated March 27, 2017**

Dear Mr. Brown:

EPA has completed its review of the March 27, 2017 ARC request for Authorization to Perform Water Treatment During the 2017 Spring Portion of the Limited Access Season High Density Sludge Treatment System Leviathan Mine Alpine County, California, dated March 27, 2017

The water treatment activities to be conducted at the site in 2017 are described in the *Removal Action Work Plan* (RAWP) dated March 1, 2013, as amended in 2014 through 2016. The requirements for capture and treatment of flows from the Channel Underdrain (CUD) and Delta Seep (DS) and operation of the high density sludge (HDS) Treatment System are set forth in the *Administrative Settlement Agreement and Order on Consent for Removal Action* (AOC), CERCLA Docket No. 2008-29/2009(a), effective January 21, 2009 (and modified as of July 22, 2013).

This letter transmits EPA's approval for ARC to conduct winter/spring 2017 Limited Access Season operations as requested by Atlantic Richfield in accordance with Paragraph 50(g) of the Administrative Settlement Agreement and Order on Consent for Removal Action, CERCLA Docket No. 2008-29, for the Leviathan Mine Site. During the LAS season, EPA requests that ARC provide weekly update reports not later than 10:00 AM each Monday morning via email that summarize LAS efforts with particular emphasis on monitoring ongoing discharges from CUD and DS (quantity discharged, quantity captured), and Aspen Seep.

We appreciate Atlantic Richfield's efforts to begin capture of the Delta Seep and Channel Underdrain flows as early as possible during this very wet season.

If you have any questions, please feel free to contact me at (415) 972-3003 or [deschambault.lynda@epa.gov](mailto:deschambault.lynda@epa.gov)

Sincerely,

A handwritten signature in cursive script that reads "Lynda Deschambault". The ink is dark and the signature is fluid, with the first name "Lynda" being more prominent than the last name.

Lynda Deschambault  
Remedial Project Manager
